

Report for Serious Incidents under the AI Act (General-Purpose AI Models with Systemic Risk)

This template serves as a means to demonstrate compliance with Article 55(1), point (c), of the AI Act as part of Commitment 9 of the Safety and Security Chapter of the [General-Purpose AI Code of Practice](#).

Reporting Template

1	Start and end dates of the serious incident The start and end dates of the serious incident, or best approximations thereof if the precise dates are unclear.
2	Resulting harm The resulting harm and the victim or affected group of the serious incident.
3	Chain of events The chain of events that (directly or indirectly) led to the serious incident.
4	Model involved The model involved in the serious incident.
5	Evidence available A description of evidence available setting out the model's involvement in the serious incident.
6	Serious incident response What, if anything, the provider intends to do or has done in response to the serious incident.
7	Recommendation What, if anything, the provider recommends the AI Office and, as applicable, national competent authorities do in response to the serious incident.
8	Root cause analysis A root cause analysis with a description of the model's outputs that (directly or indirectly) led to the serious incident and the factors that contributed to their generation, including the inputs used and any failures or circumventions of systemic risk mitigations.
9	Patterns in post-market monitoring on serious incidents Any patterns detected during post-market monitoring that can reasonably be assumed to be connected to the serious incident, such as individual or aggregate data on near misses.

10	Submitter information		
a	☐ Provider ☐ Authorised representative ☐ Other, please specify: Click or tap here to enter text.		
b	Organisation name		
c	Contact's first name	d	Contact's last name
e	Contact's email	f	Contact's phone
